

Governor's Maths Visit

Name/s of governor/s: Ms. Dimpy Satija	Date of visit: 17 th November 2016
Staff member responsible: Mrs. Racheal Dunkley	
Evaluation from Previous Visit: n/a – first visit on this topic	
Governor feedback I was very encouraged by the visit. The Year 1 Mathematics leader has a clear plan for an effective learning for students. Classrooms looked welcoming and colorful, with wall displays, sensory equipment and reading corners. I got the opportunity to see learning in action. Teachers provide a range of stimulating activities to students to promote confidence and enable them to do mental mathematics. Teachers do take urgent action to develop children's learning and mathematical skills to prepare them well for future education.	
Conclusion Children in Year 1 make best possible start to their education. Their confidence in talking and using early numeracy skills is well developed. Staff provide appropriate engaging activities that enable children to learn and apply these skills rapidly. Teachers are highly qualified and well experienced.
